Software Development Leader

Job Highlights

- Salary: Negotiable
- 6+ years software development experience
- Agile Project Management

About us:

Founded in 2015, XJCP Limited is a fintech company that specializes in management consulting, trading and risk-management platform solutions, digital marketing, and business operations. With over 15-year experience in financial service and technology, we aim to build up a one-stop shop for our clients to be successful in their fintech business.

XJCP works with its clients on developing technology-assisted trading technology, considering other systems that would assist their clients. XJCP is always looking to expand its scope of work and its range of clients.

XJCP has supported the launch of the crypto-focused hedge fund TIAG Digital Labs SP Fund focused on taking advantage of novel arbitrage opportunities in the growing cryptocurrency markets.

Satoshi Strategic SP Fund, soon launched afterwards to capture the performance of Bitcoin, structured as an investment vehicle for their clients to gain exposure without the complications of safekeeping the assets.

Responsibilities:

- Be involved in all aspects of the software development-cycle. From synthesizing requirements, analysis of existing systems, design and implementation, to production rollout and subsequent support;
- Provide development leadership and expertise for the company;
- Write clean, high-quality, high-performance, maintainable code;
- Develop and support software including applications, database integration, interfaces, and new functionality enhancements;
- Compile documentation of specifications on technical and functional design;
- Develop systems according to business requirements and technical specifications;
- Develop, enhance, and maintain software applications for various solutions, including coding, debugging, testing of the system;
