Derivatives Trader, Quant across asset classes

Job Highlights

- Salary: Negotiable
- Location: Admiralty, Hong Kong
- Interested in trading & financial/crypto markets

About us:

Founded in 2015, XJCP Limited is a fintech company that specializes in management consulting, trading and risk-management platform solutions, digital marketing, and business operations. With over 15-year experience in financial service and technology, we aim to build up a one-stop shop for our clients to be successful in their fintech business.

XJCP works with its clients on developing technology-assisted trading technology, considering other systems that would assist their clients. XJCP is always looking to expand its scope of work and its range of clients.

XJCP has supported the launch of the crypto-focused hedge fund TIAG Digital Labs SP Fund focused on taking advantage of novel arbitrage opportunities in the growing cryptocurrency markets.

Satoshi Strategic SP Fund, soon launched afterwards to capture the performance of Bitcoin, structured as an investment vehicle for their clients to gain exposure without the complications of safekeeping the assets.

Responsibilities:

- Provide market-color and relevant trade analysis
- Identify and solve technical trading problems, and implement automated solutions
- Conduct detailed trading research by collecting and analyzing data from various sources
- Work with developers to improve the efficiency and algorithms of our in-house trading software
- Strong analytical skill, can understand, analyze, and identify trends from numbers / data
- Strong organizational skill with attention to details
- A positive, self-motivated goal-oriented individual with strong work ethics
- Ability to work independently
